

Lull Telehandler Parts

Telehandlers by Lull have been providing load placement precision since the year 1959. The Lull telehandler can really help make the task faster and easier, whether the work entails transferring loads, positioning heavy steel or landing loads on scaffoldings. These units are available with the patented Stabil-Trak stability system so as to ensure operator confidence. The Lull horizontal load placement system supplies eighty inches of boom travel for precision placement capabilities. A wide range of optional attachments is obtainable for Lull telehandlers to be able to help complete whatever task.
